

**1. Introduction to Recovery Manager ..... 1.1**

Lesson Objectives .....	1.2
What is RMAN? .....	1.3
Basic Features .....	1.5
Basic Features: Repository .....	1.8
9i New Features .....	1.10
9i R2 New Features.....	1.13
Introduction Complete!.....	1.15

**2. RMAN Architecture ..... 2.1**

Lesson Objectives .....	2.2
RMAN Components .....	2.3
Component Releases.....	2.5
The Control File.....	2.6
...The Control File.....	2.7
CFRKT Parameter .....	2.8
Control File Creation .....	2.10
Control File Size .....	2.13
NOCATALOG Mode .....	2.17
Recovery Catalog.....	2.19
Recovery Catalog Maintenance .....	2.23
Where We've Been.....	2.25
RMAN Architecture Workshop.....	2.27

**3. RMAN Setup ..... 3.1**

Lesson Objectives .....	3.2
RMAN Installation .....	3.3
User "RMAN" .....	3.4
Password File .....	3.5
Oracle Net .....	3.7
Catalog Tablespace .....	3.8
Create Catalog.....	3.9
Register Database .....	3.10
Startup Options .....	3.11
Lesson Summary.....	3.13
RMAN Setup Workshop .....	3.14

**4. Executing RMAN Commands..... 4.1**

Lesson Objectives .....	4.2
-------------------------	-----

RMAN Command Basics .....	4.3
8i Job Blocks.....	4.4
9i Command Syntax.....	4.5
SQL Commands.....	4.6
Common Job Commands.....	4.7
Common Commands... ..	4.8
RMAN Commands Workshop.....	4.11

## **5. RMAN Channels ..... 5.1**

Lesson Objectives .....	5.2
Channel Concepts... ..	5.3
Manual Allocation .....	5.5
Querying V\$SESSION .....	5.7
Parallel Backups... ..	5.8
Automatic Allocation... ..	5.11
Summary .....	5.14
Channels Workshop.....	5.15

## **6. Backup with RMAN ..... 6.1**

Lesson Objectives .....	6.2
Backup Concepts .....	6.3
Backup Set Concepts .....	6.5
Backupset Pieces.....	6.7
Control File AUTOBACKUP.....	6.9
Full Backup.....	6.12
Deleting Archive Logs.....	6.14
BACKUP Syntax .....	6.16
Interpreting BACKUP Command Output.....	6.18
Full Tablespace Backup.....	6.21
Datafile Backup .....	6.22
Full Backup Workshop .....	6.23
Incremental Backup .....	6.24
Cumulative Incremental.....	6.27
Incremental Backup Workshop .....	6.29
Duplexing.....	6.30
Duplexing Workshop.....	6.31
Backup Archive Logs .....	6.32
Backup Archive Logs Workshop.....	6.33
Retention Policies .....	6.34
Recovery Window .....	6.35
Redundancy .....	6.36
Overriding.....	6.37
Summary .....	6.38

**7. Restore & Recovery with RMAN ..... 7.1**

Lesson Objectives .....	7.2
Failure Scenarios.....	7.3
Recovery-Related Commands .....	7.4
RESTORE Command .....	7.6
RECOVER Command .....	7.8
Recover Deleted Files.....	7.9
Recover Deleted Files Example.....	7.11
Recover Lost Tablespace .....	7.12
Restore to New Location .....	7.13
Restore to New Location Example .....	7.14
PIT Recovery (1) .....	7.15
PIT Recovery (2) .....	7.16
PIT (3).....	7.17
Control File Recovery.....	7.19
Control File Recovery Example .....	7.20
Control File Recovery on Tape.....	7.22
Summary .....	7.23
Restore and Recovery Workshop .....	7.24

**8. Debugging RMAN ..... 8.1**

Lesson Objectives .....	8.2
RMAN Messages.....	8.3
Capturing RMAN Logs .....	8.5
Debugging RMAN	
Workshop A.....	8.7
Reading RMAN Messages.....	8.8
Useful Views.....	8.9
V\$PROCESS / V\$SESSION .....	8.10
V\$SESSION.CLIENT_INFO.....	8.12
V\$SESSION_LONGOPS.....	8.13
V\$SESSION_WAIT .....	8.14
Debugging RMAN	
Workshop B .....	8.15
Terminating Disk Jobs .....	8.16
RMAN Debug Mode .....	8.17
Media Manager Debugging .....	8.18
References.....	8.20
Summary .....	8.21
Debugging RMAN	
Workshop C .....	8.23

**9. Scripting and Reporting ..... 9.1**

Scripting.....	9.2
Reporting .....	9.5
Reporting: LIST.....	9.6
Reporting: REPORT .....	9.9
Reporting: Views .....	9.10
Reporting: SHOW.....	9.12
Scripting and Reporting Workshop .....	9.13

**10. Getting Started With Tapes ..... 10.1**

Lesson Objectives .....	10.2
Media Management Concepts .....	10.3
Installing the MML.....	10.5
Backup to Tape .....	10.6
Environment Variables .....	10.7
Default Tape Channels.....	10.8
Configurable Tape Settings .....	10.9
Setting Default SBT Channels.....	10.10
Backup with Default Channels .....	10.11
Tape Restore .....	10.12
V\$SESSION_WAIT.....	10.13
Terminating Tape Jobs.....	10.14
Media Manager Debugging .....	10.15
Summary .....	10.16
What We've Covered.....	10.17
Getting Started with Tapes Workshop.....	10.18

**11. RMAN Maintenance ..... 11.1**

Lesson Objectives .....	11.2
Expired Backups.....	11.3
Cross-Checking Backups.....	11.4
Listing Expired Backups.....	11.7
Status of All Backups .....	11.8
Deleting Expired Backups.....	11.9
Obsolete Backups .....	11.11
Deleting Obsolete Backups.....	11.12
Retention Policy.....	11.13
Summary .....	11.15
Maintenance Workshop .....	11.16

**12. Tuning RMAN ..... 12.1**

Lesson Objectives .....	12.2
Getting Started .....	12.3
Oracle Benchmark... ..	12.4
Performance Factors .....	12.6
Tuning Tools.....	12.8
Checking RMAN Progress .....	12.9
V\$SESSION_WAIT .....	12.10
The S.A.M.E. Methodology.....	12.11
Parallelism .....	12.12
Parallelism Test.....	12.13
Sync vs. Async I/O .....	12.15
Enable Async IO to Tape.....	12.16
Sync vs. Async Test.....	12.17
V\$SESSION.CLIENT_INFO.....	12.18
Tape Compression... ..	12.19
Multiplexing.....	12.21
Multiplexing & Memory.....	12.23
Multiplexing Guidelines .....	12.24
Multiplexing Tests .....	12.25
Tape Buffer / Block Size .....	12.26
Slowing RMAN Down .....	12.27
Backup Optimization .....	12.28
Summary .....	12.29
References.....	12.30
Tuning RMAN Workshop .....	12.31

**13. Oracle10g Backup and Recovery Enhancements..... 13.1**

Lesson Objectives .....	13.2
Flash Recovery Area: Concepts.....	13.3
Flash Recovery Area:	
Benefits .....	13.4
Flash Recovery Area: Configuration .....	13.6
Flash Recovery Area: Monitoring... ..	13.7
Flashback Database.....	13.9
Flashback Logs .....	13.11
Configure Database.....	13.13
Flashback Database: Example .....	13.14
Flashback Database TO BEFORE RESETLOGS .....	13.15
Monitoring Flashback Database... ..	13.16
Restore Points... ..	13.18
Simplified Recovery Through RESETLOGS (SRR).....	13.21
SRR Architectural Changes... ..	13.22

Compressed Backups .....	13.25
Change Tracking .....	13.26
Incrementally Updated Image Copies .....	13.28
SWITCH DATABASE Command .....	13.30
Encrypted Backups .....	13.32
RMAN DROP DATABASE .....	13.33
RMAN CATALOG Command .....	13.34
DURATION Parameter .....	13.35
New V\$ Views .....	13.36
More RMAN Enhancements .....	13.37
Additional R2 RMAN Enhancements .....	13.39
User-Managed Enhancements .....	13.41
Oracle Secure Backup .....	13.42
Lesson Summary .....	13.43

<b>14. RMAN Case Studies .....</b>	<b>14.1</b>
------------------------------------	-------------

Lesson Objective .....	14.2
#1 – Lost Control File .....	14.3
#1 – Solution .....	14.4
#2 – Lost Cntl File, No Cat .....	14.5
#2 - Solution .....	14.6
#3 - Dropped Tablespace .....	14.7
#3 – Solution .....	14.8
#4 - Tuning .....	14.10
#4 - Solution .....	14.11
